FEATURES

- Manage multiple floors
- Partitioning
- Configure lock settings
- Enroll credentials
- Set schedules
- Integrate effortlessly into your existing access control system

Why Choose Millennium & Allegion Integration?

Unlock unparalleled benefits by integrating Millennium with Allegion smart locks, ensuring a seamless and secure access control system.

- Incorporate Allegion smart locks into your existing access control infrastructure, expanding your system's capabilities.
- Accommodates hard to wire locations such as large spaces like museums, churches or gyms.
- Use on doors that only open 3 to 5 times a day.
- Embrace technology that aligns with evolving industry trends, ensuring your access control solution remains up-to-date and relevant for years to come.
