

MSLR1 CARD ACCESS SYSTEM

Synergistics Premier Banking's MSLR:1. A TM vestibule card access control system is the most widely accepted vestibule access system in the world.

Install It and Forget It - You Can't Go Wrong

The complete MSLR1 ATM system is designed and manufactured by Synergistics Premier Banking to rigorous specifications assuring our bank customers and their patrons years of trouble free service. Our quality control begins where it should, at the design level, and we carry that quality through every step in the manufacturing process.

Our bank customers are picky, and so are we. They want worry-free, low to no maintenance operation and the MSLR1 ATM vestibule card access system has been providing exactly that for many years in over 100,000 installations.

It Just Works

MSLR1 systems are installed in all climates from Alaska to Africa and operate in all sorts of weather from raging snowstorms to baking heat without problems. Synergistics builds the quality in allowing you to take the system for granted. It just works.

The MSLR1 ATM card access system meets all requirements for ATM vestibule access control. Its unmatched reliability, low cost, and high quality are the reasons for Synergistics Premier Banking's unchallenged, solid leadership.

Self-Contained System

Synergistics Premier Banking's MSLR1 vestibule card access control system does not require expensive computers or software. It is entirely self-contained and ready to install. All that is needed is for your installation company to supply a door strike or magnetic lock with power supply. We supply the rest.

Wide Choice of Readers

Synergistics Premier Banking offers a wide range of reader choices in many shapes and sizes all designed and manufactured to our stringent specifications. So, we are sure to stock the specific reader to meet your special requirements.

Affordable

While the MSLR1 system is the most reliable, the highest quality, and the best selling vestibule card access system, it is not expensive. We depend upon our bank customers returning time after time as their needs expand. We offer both our loyal return customers and our new ones the same outstanding value.
